Bug Report 1

ID number	#1	*automatically getting in bug tracking system*
Bug Summary	"Account Balance" field is modifiable	
Reporter	Victoria Badalyan	
Submit Date	06/10/2023	*automatically getting in bug tracking system*
Platform	Windows	
Operating System	Windows 10 Home	
Browser	**Google Chrome** Version 119.0.6045.199 (Official Build) (64-bit) **Microsoft Edge** Version 119.0.2151.97 (Official Build) (64-bit)	
Severity	Medium	
Priority	Medium	
Status	Resolved	*automatically getting 'Open' in bug tracking system*
Assigned to	QA/Developer/BA	
Version	1.0	
Environment	dev	
Component/tag	Balance	
Screenshot/video	-	

Precondition: (optional)
1. Open https://qwallity-dev.******.com
2. Pass the security check-in
3. Log into the system

Test Data: (optional)
1. Email-*******@gmail.com , Code- ******
2. Username- *****, Password- ******

Description: (optional)
When clicking on the "Account Balance" field, it is activated and lets the user modify the amount shown there. Besides, the unnecessary "up and down" arrows are displayed in the field.

Steps to reproduce
1. Click on the "User_Action" link
2. Click on the "Account Balance" field and change the amount shown into e.g. "250".

Expected result
The field should not be modifiable.

Actual result
The field becomes active, lets the user to modify the shown amount and also there are some unnecessary "up and down" arrows displayed there.

Bug Report 2

ID number	#2	*automatically getting in bug tracking system*
Bug Summary	After multiple checkouts the receipt does not show the final amount of the balance	
Reporter	Victoria Badalyan	
Submit Date	08/10/2023	*automatically getting in bug tracking system*
Platform	Windows	
Operating System	Windows 10 Home	
Browser	**Google Chrome** Version 119.0.6045.199 (Official Build) (64-bit) **Microsoft Edge** Version 119.0.2151.97 (Official Build) (64-bit)	
Severity	Major	
Priority	High	
Status	Resolved	*automatically getting 'Open' in*

		bug tracking system
Assigned to	QA/Developer/BA	
Version	1.0	
Environment	dev	
Component/tag	Payment	
Screenshot/video	-	

Precondition: (optional)
1. Open https://qwallity-dev.******.com
2. Pass the security check-in
3. Log into the system

Test Data: (optional)
1. Email-*******@gmail.com , Code- ******
2. Username- *****, Password- ******

Description: (optional)
After multiple checkouts the systems correctly displays the final amount in the "Amount" field, which does not correspond to the amount in the receipt.

Steps to reproduce
1. Click on the "User Action" button
2. Fill in the "Amount" field with a valid data: e.g. 200
3. Click on the "Checkout" button
4. Fill in the "Amount" field with a valid data: e.g. 300
5. Click on the "Checkout" button
6. Click on the "Print Receipt" button

Expected result
The system should print the receipt with the last checkout data.

Actual result
The receipt shows the same wrong data no matter how many checkouts are done.

Notes: (optional)
The logic is the following. The system prints and displays only the first checkout info of the day. And no matter how many checkouts are done during that day, the system only prints the data of the first checkout of that day.
